| The MAILING DATE of this communication appears on the cover sheet with the correspondence address | | | | | |
| THE REPLY FILED 26 November 2002 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. | | | | | |
| PERIOD FOR REPLY [check either a) or b)] | | | | | |
| a) The period for reply expires 3 months from the mailing date of the final rejection. b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f). | | | | | |
| Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). | | | | | |
| 1. A Notice of Appeal was filed on Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal. | | | | | |
| 2. The proposed amendment(s) will not be entered because: | | | | | |
| (a) ☐ they raise new issues that would require further consideration and/or search (see NOTE below); | | | | | |
| (b) ☐ they raise the issue of new matter (see Note below); | | | | | |
| (c) they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or | | | | | |
| (d) they present additional claims without canceling a corresponding number of finally rejected claims. NOTE: | | | | | |
| 3. Applicant's reply has overcome the following rejection(s): | | | | | |
| 4. Newly proposed or amended claim(s) would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s). | | | | | |
| 5. The a) affidavit, b) exhibit, or c) request for reconsideration has been considered but does NOT place the application in condition for allowance because: | | | | | |
| The affidavit or exhibit will NOT be considered because it is not directed SOLELY to issues which were newly raised by the Examiner in the final rejection. | | | | | |
| 7. For purposes of Appeal, the proposed amendment(s) a) will not be entered or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended. | | | | | |
| The status of the claim(s) is (or will be) as follows: | | | | | |
| Claim(s) allowed: | | | | | |
| Claim(s) objected to: | | | | | |
| Claim(s) rejected: <u>1-17</u> . | | | | | |
| Claim(s) withdrawn from consideration: | | | | | |
| ☐ The proposed drawing correction filed on is a)☐ approved or b)☐ disapproved by the Examiner. | | | | | |
| 9. Note the attached Information Disclosure Statement(s)(PTO-1449) Paper No(s) | | | | | |
| 10. Other: | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |

Art Unit: 1616

The 112 second paragraph rejection is withdrawn.

The examiner points out that the instant claims are still rejected since the instant claim recite recovering the biologically active components, which the cited art teaches as stated in the final office action. The examiner points out that on column 4, lines 40-50 Ericcson teaches the use of low temperatures to avoid denaturing the active agent; therefore the active agent retains its original structure since the denaturing of a protein involves the loss of the native three dimensional configuration. In regards to the dehydration argument, the examiner points to column 4, lines 24-25 where the solvent contains NaCl and KCl, which would dehydrate the active.

Arguments regarding JP not teaching reducing the water content, the examiner points out that the process of dehydration reduces water content. In regards to arguments pertaining to Ueno, the examiner points out that the rejection is an obviousness type rejection. The secondary reference does not have to teach or anticipate all the elements of the instant invention; hence it is used in combination with the primary reference. Ueno is relied upon for its specific teachings of salts in the dehydration solution of JP. Ueno teaches that sodium chloride during washing of the product removes factors that cause denaturation of proteins (col. 1, line 16 and lines 44-45). Therefore, one would be motivated to use sodium chloride to keep the active component (protein) in its original form.

All the stated art rejections in the final office action are maintained.

Application/Control Number: 09/964,120

Art Unit: 1616

Any inquiry concerning this communication from the examiner should be directed to Sharmila S. Gollamudi whose telephone number is (703) 305-2147. The examiner can be normally reached M-F from 7:30 am to 4:15pm.

If attempts to reach the examiner by the telephone are unsuccessful, the examiner's supervisor, Jose Dees, can be reached at (703) 308-4628. The fax number for this organization where this application or proceeding is assigned is (703) 308-4556.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist, whose telephone number is (703) 308-1235.
